

The

# BABY MONKEY

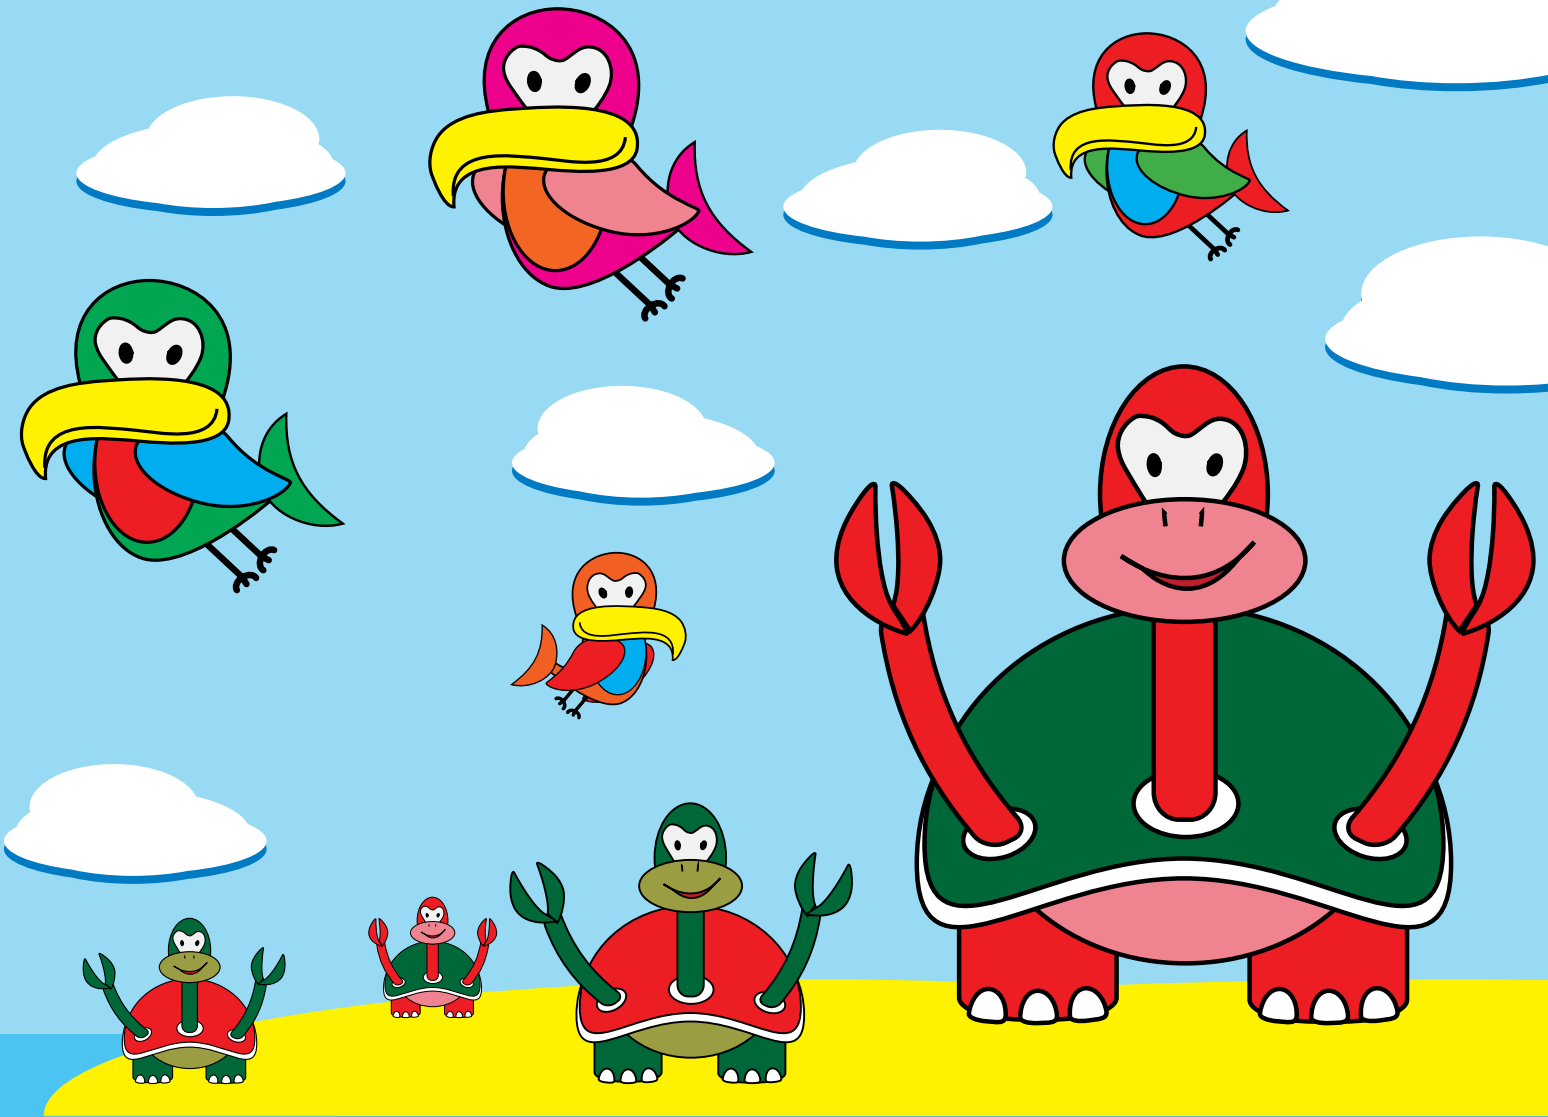

# DOLPHIN CLUB<sup>®</sup>

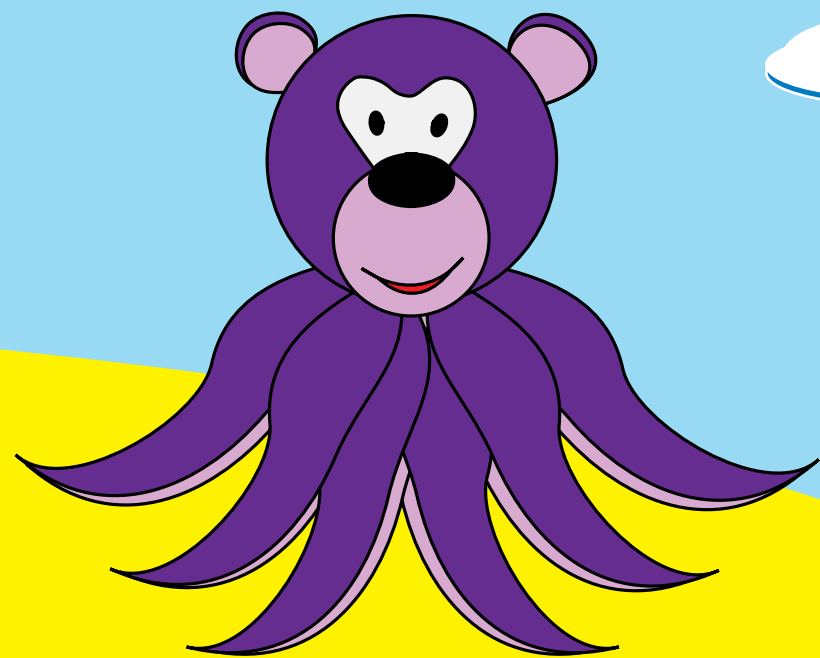

Way far from land.  
Drift out to sea.  
Follow the wind,  
And there he will be.

10 clouds north,  
and 8 waves south.  
6 Parafish west.  
4 Turtacrabs east.

“We are almost there!  
It is not far now.”  
Decreed Octabear.  
Agreed Elefrog.

Under the sun.  
Beneath the tree.  
There lays an egg,  
as square as can be.

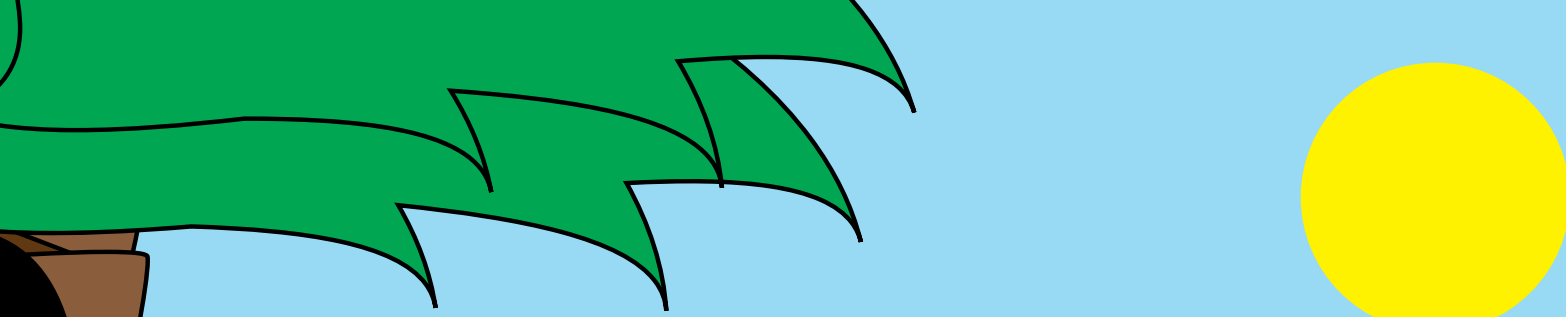

With 6 sides flat  
Not four, not two.  
With all sides yellow,  
Big stripes of blue.

The time is right.  
The weather is well.  
★ Tonight you'll hear,  
Crack shell! Crack shell!

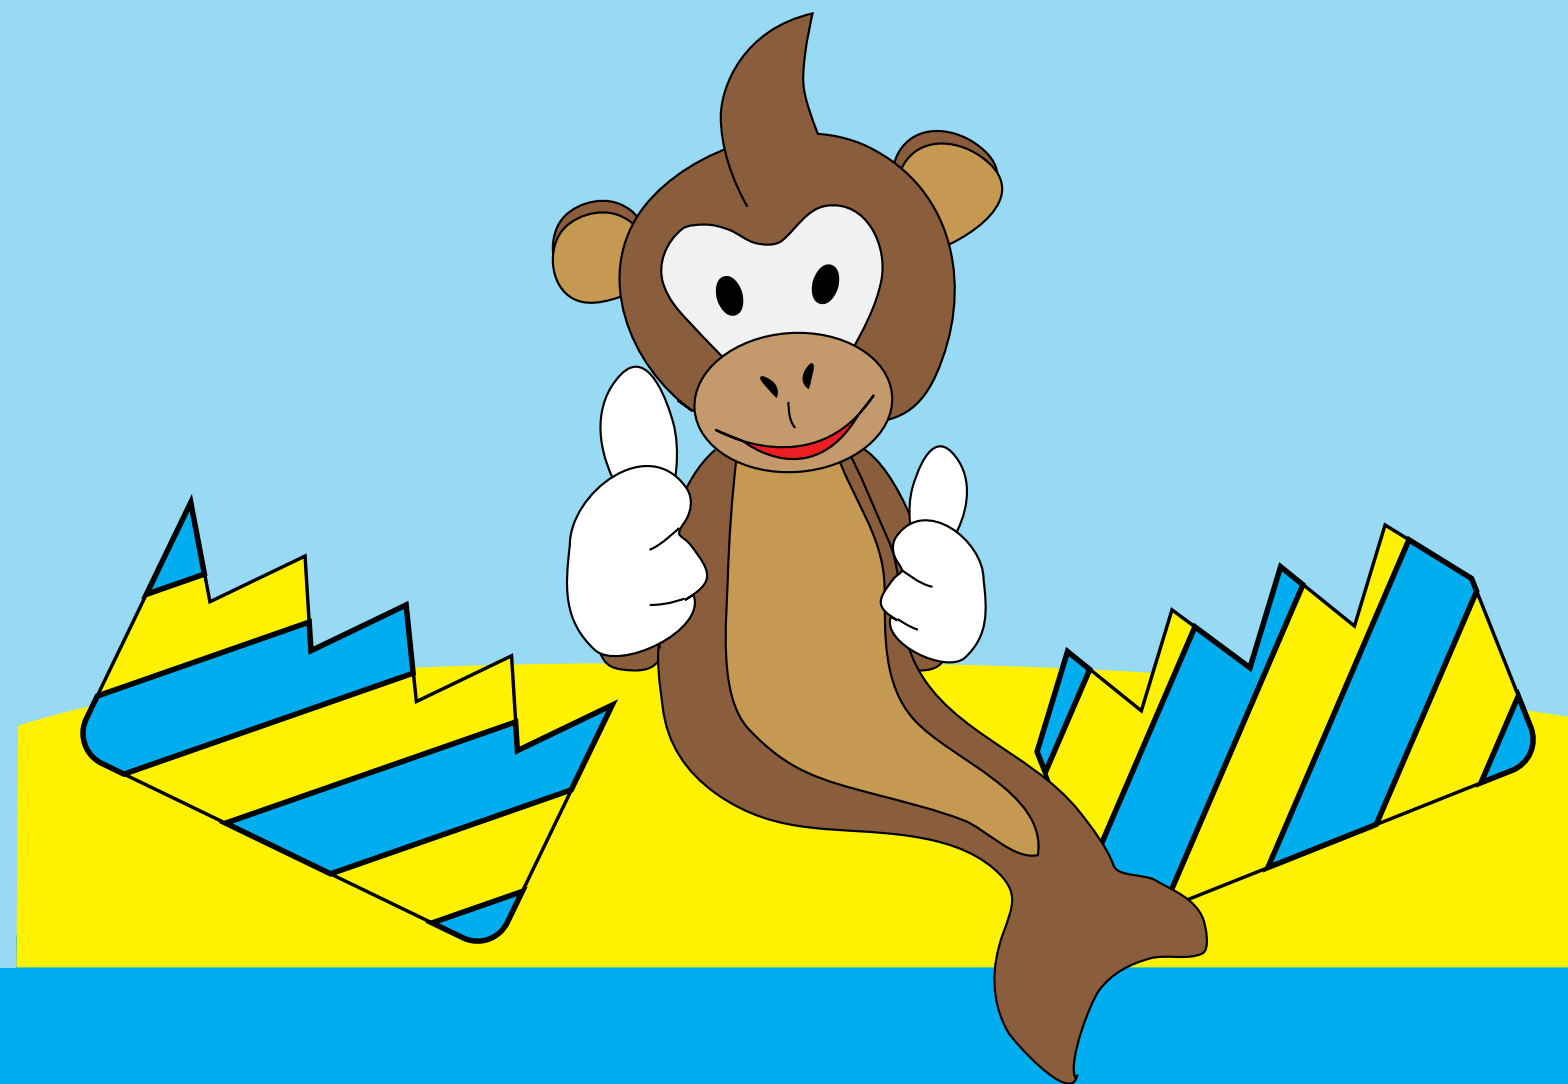

Out popped a friend.  
He winked and smiled.  
Then scratched his head,  
Looked round' the isle.

A happy baby.  
My shell now open.  
Half part monkey,  
half part dolphin.

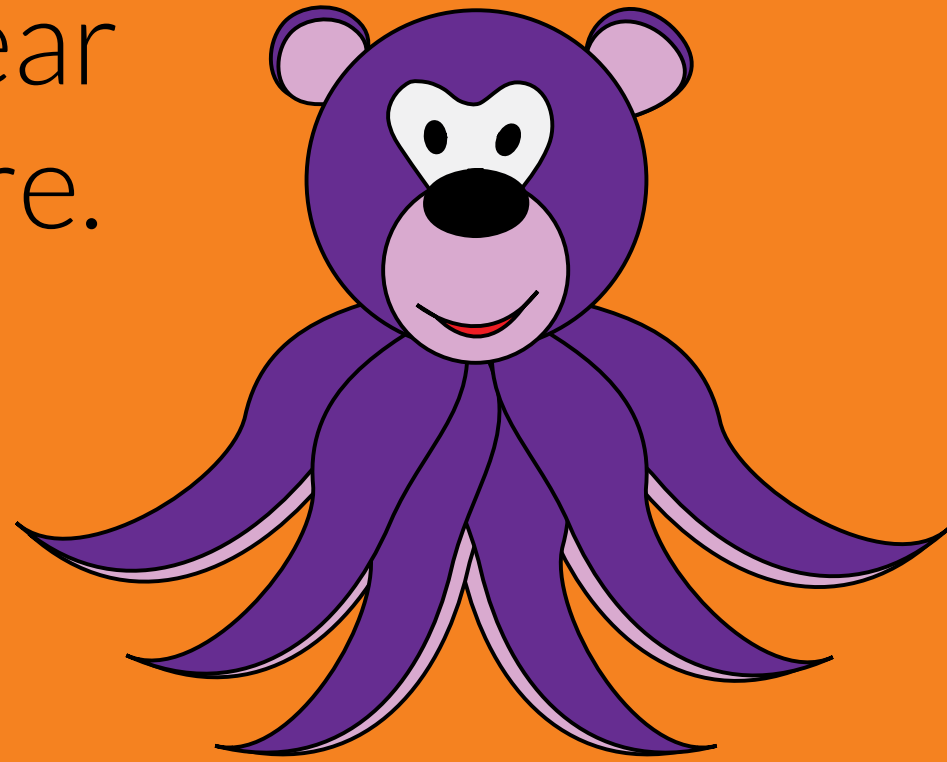

What is this place?  
Mondolphia!  
Who shouted that phrase?  
The B! M! D! Club!

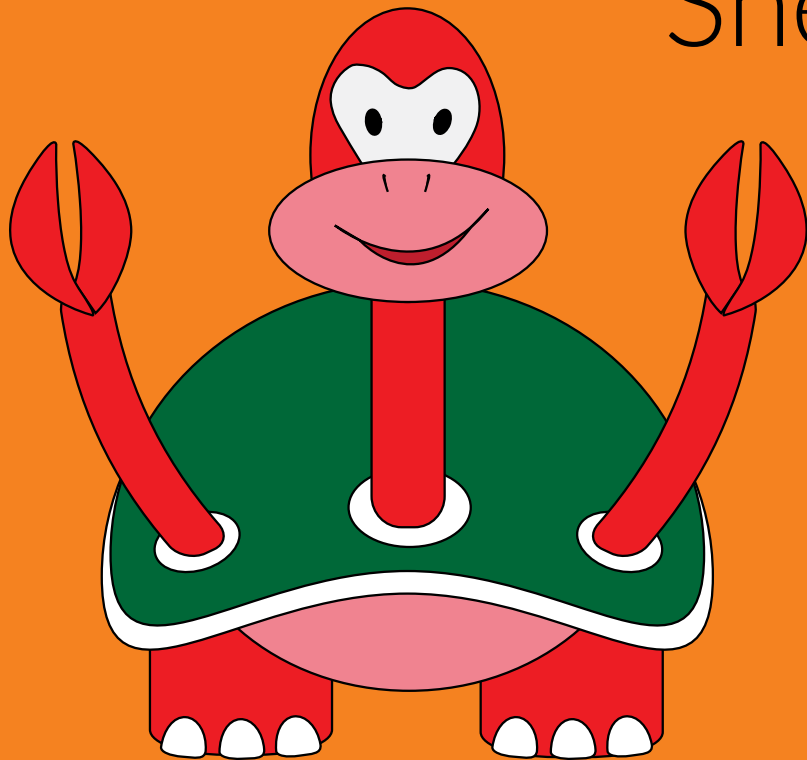

The B.M.D. Club?  
What does this mean?  
Who are you all?  
Tell me! Tell me!

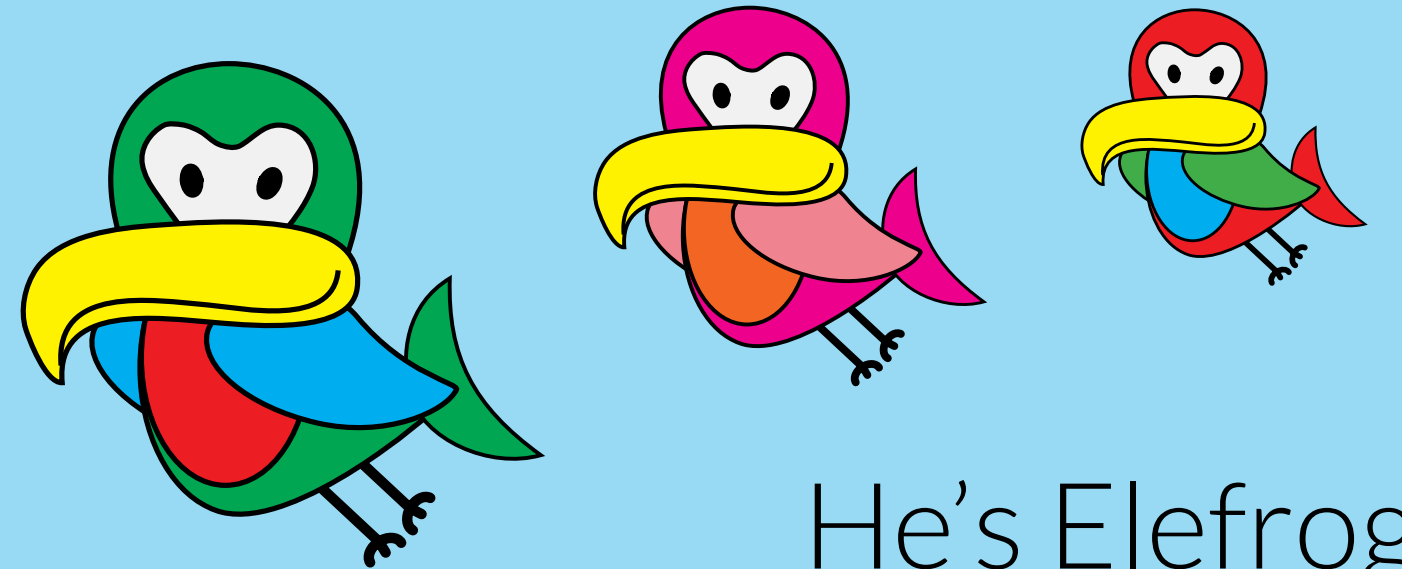

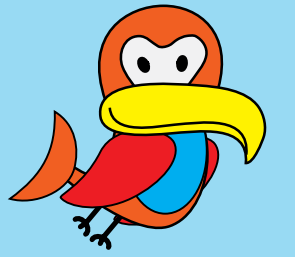

I'm Octabear  
I love it here.

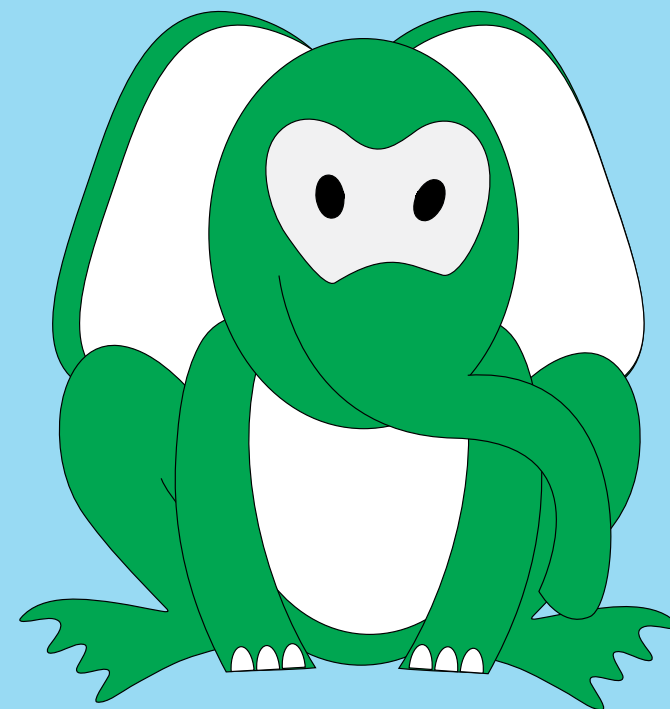

That's Turtacrab  
She has no fear.

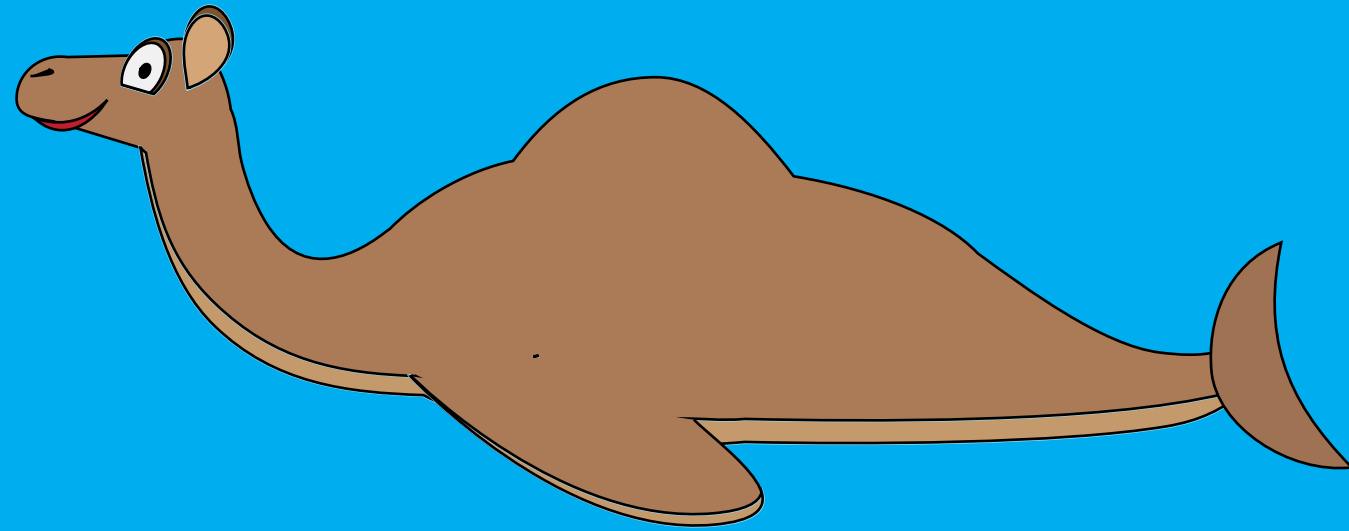

Those Parafish  
They swim, they fly.

He's Elefrog  
Hop, hop  
Oh my!

That's Camawhale.

And the great Zeebugs.

And we're all friends  
in the B.M.D. Club

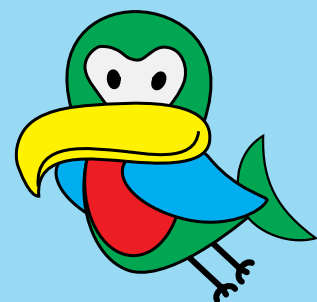

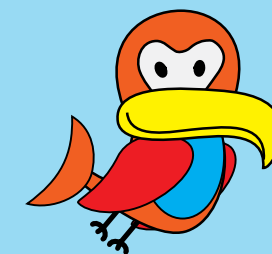

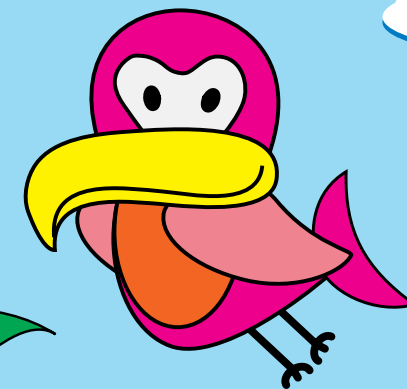

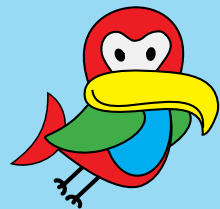

The B.M.D Club?  
I'll kindly ask  
What does this stand for?  
At last! at last!

“B” is for baby.  
 “M” is for monkey.  
 “D” is for dolphin.  
 “C” is for club.

We're all friends,  
 Come give us a hug.  
 We will stay friends,  
 As long as there's love.
